

Figurative Art Classes and Workshops

There are many Art Classes, Courses and Workshops that you, as an artist can choose from to help you to hone your skills, gain experience and to broaden your Artistic Horizons – but the success of **Modelled Me UK** sessions – that have been running since 2004, speak for themselves.

As the Human Form is central to **ALL** figurative Art, we have always placed the highest importance on the quality and abilities of our models.

All sessions are lead by the renowned UK Figure Model, Rosemarie Orwin, (whose reputation reaches far beyond the UK). It is her high standards and skills that are used as a yard stick for the guest models who contribute their own experience, variety and additional (Dancers/Acrobats/Athletes etc) to our sessions.

The chart below will provide you with details of the dates and locations of future events – but please refer to our website – www.modelled.me.uk for up to date details on availability and the latest information on models and any special notices.
